

LITIGATION GRAPHICS • DEMONSTRATIVE CASE STUDY

Environmental & Toxic Tort

Contamination and exposure, mapped to the record.

FIVE DEMONSTRATIVE PANELS

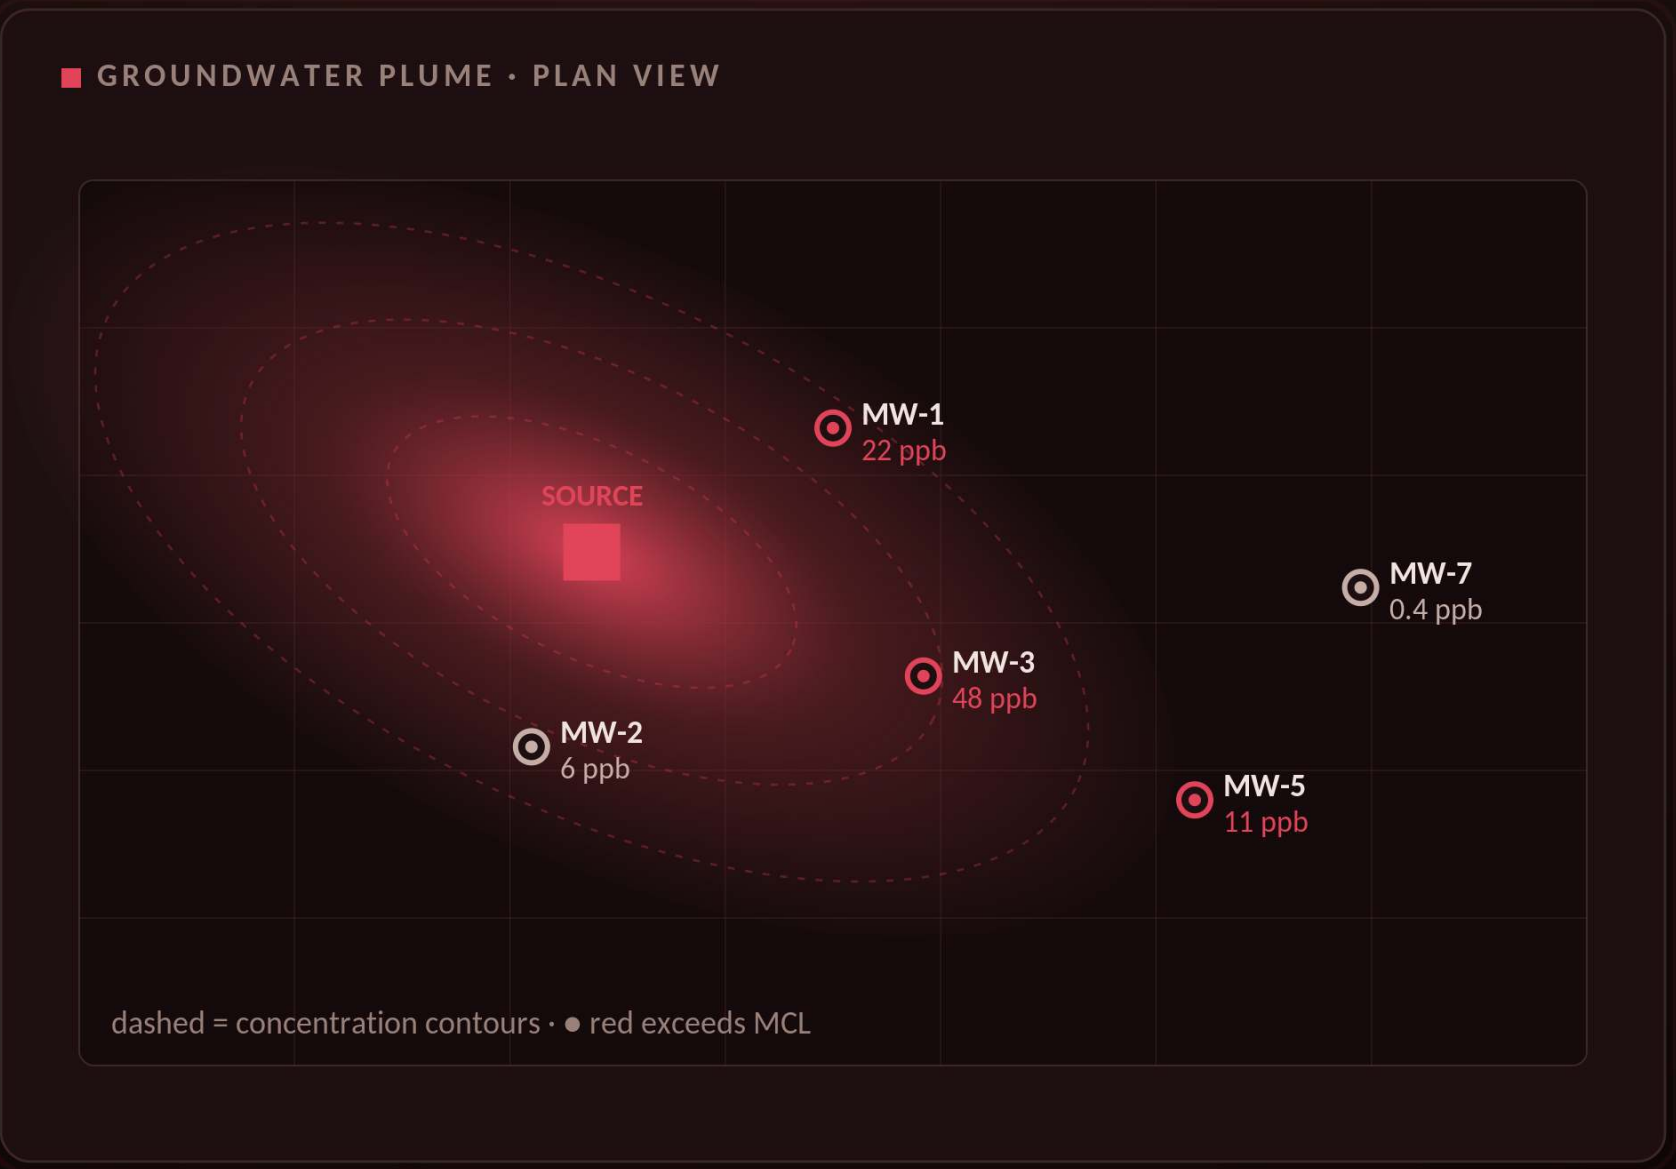

VIEW THE FULL CASE STUDY • PDF →

CASE 01 • CONTAMINATION

Mapping the Plume

Where the contamination spread, and how far.

48 ppb

peak (MW-3)

18×

over the MCL

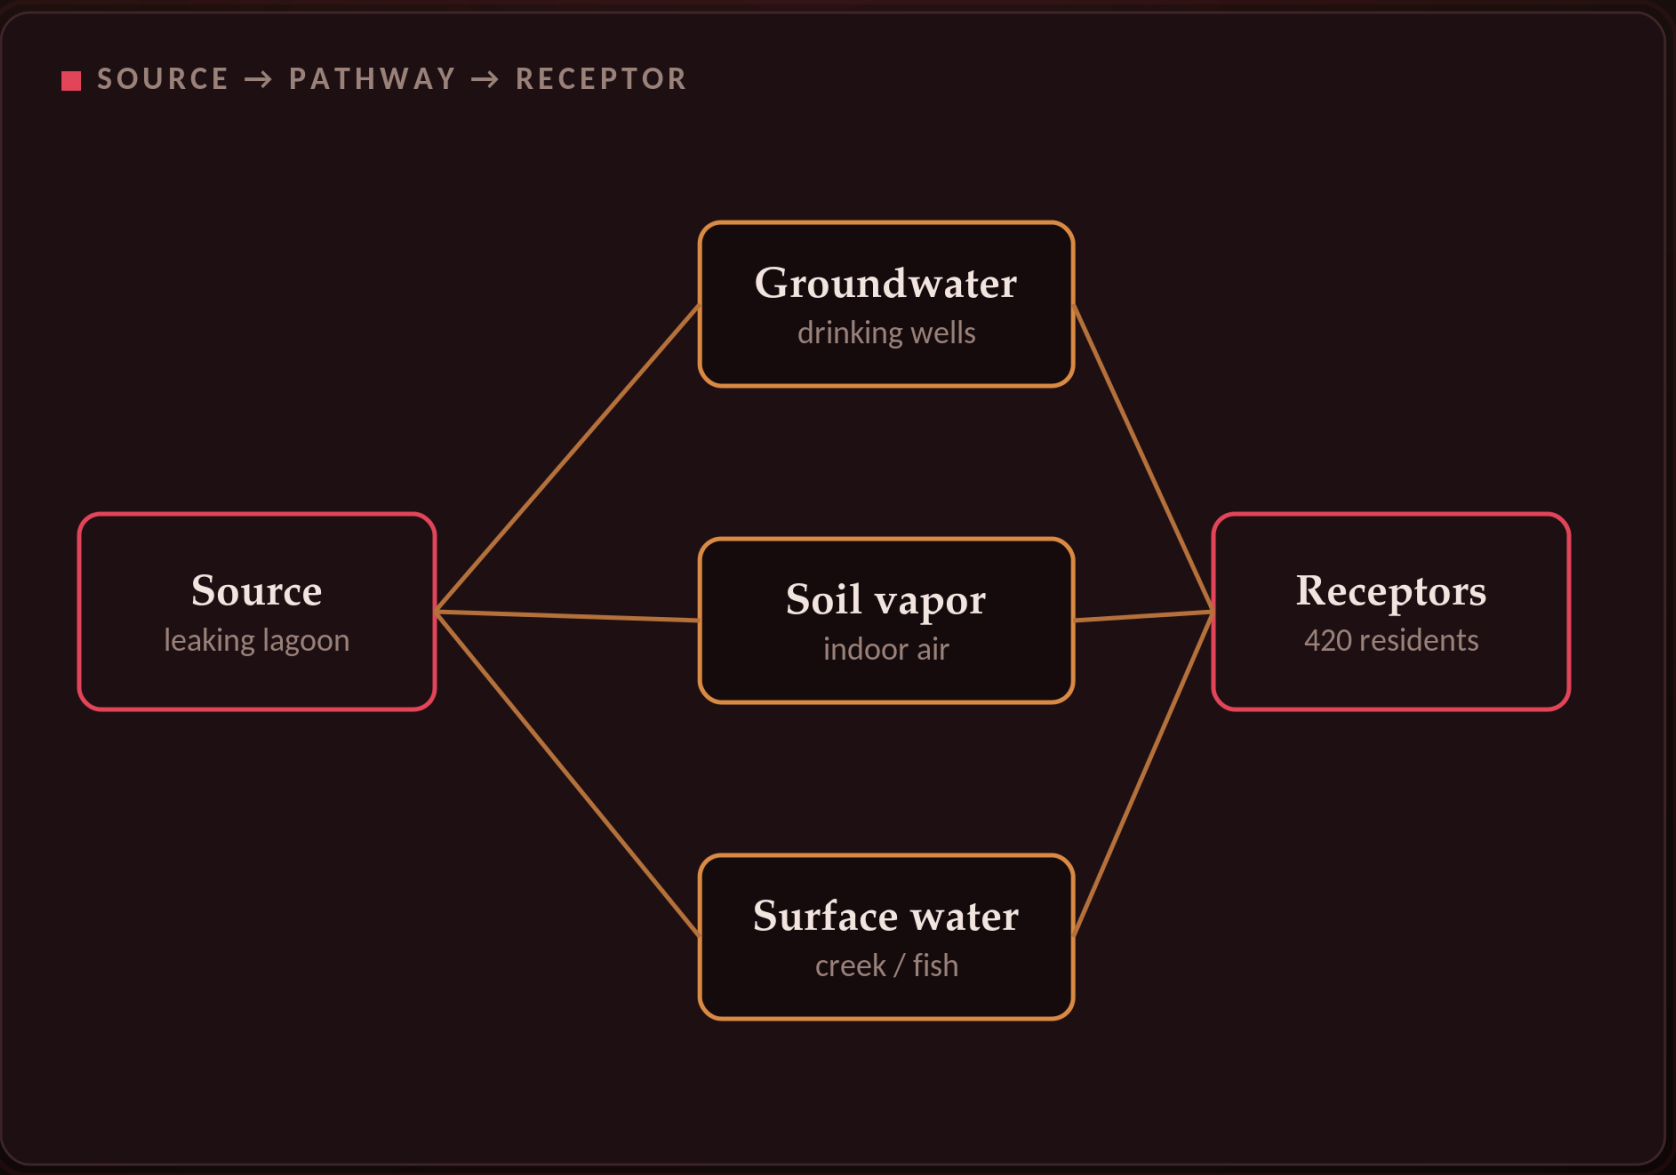

420

residents

CASE 02 • EXPOSURE

Pathways of Exposure

How the contaminant reached people.

3

complete pathways

420

exposed

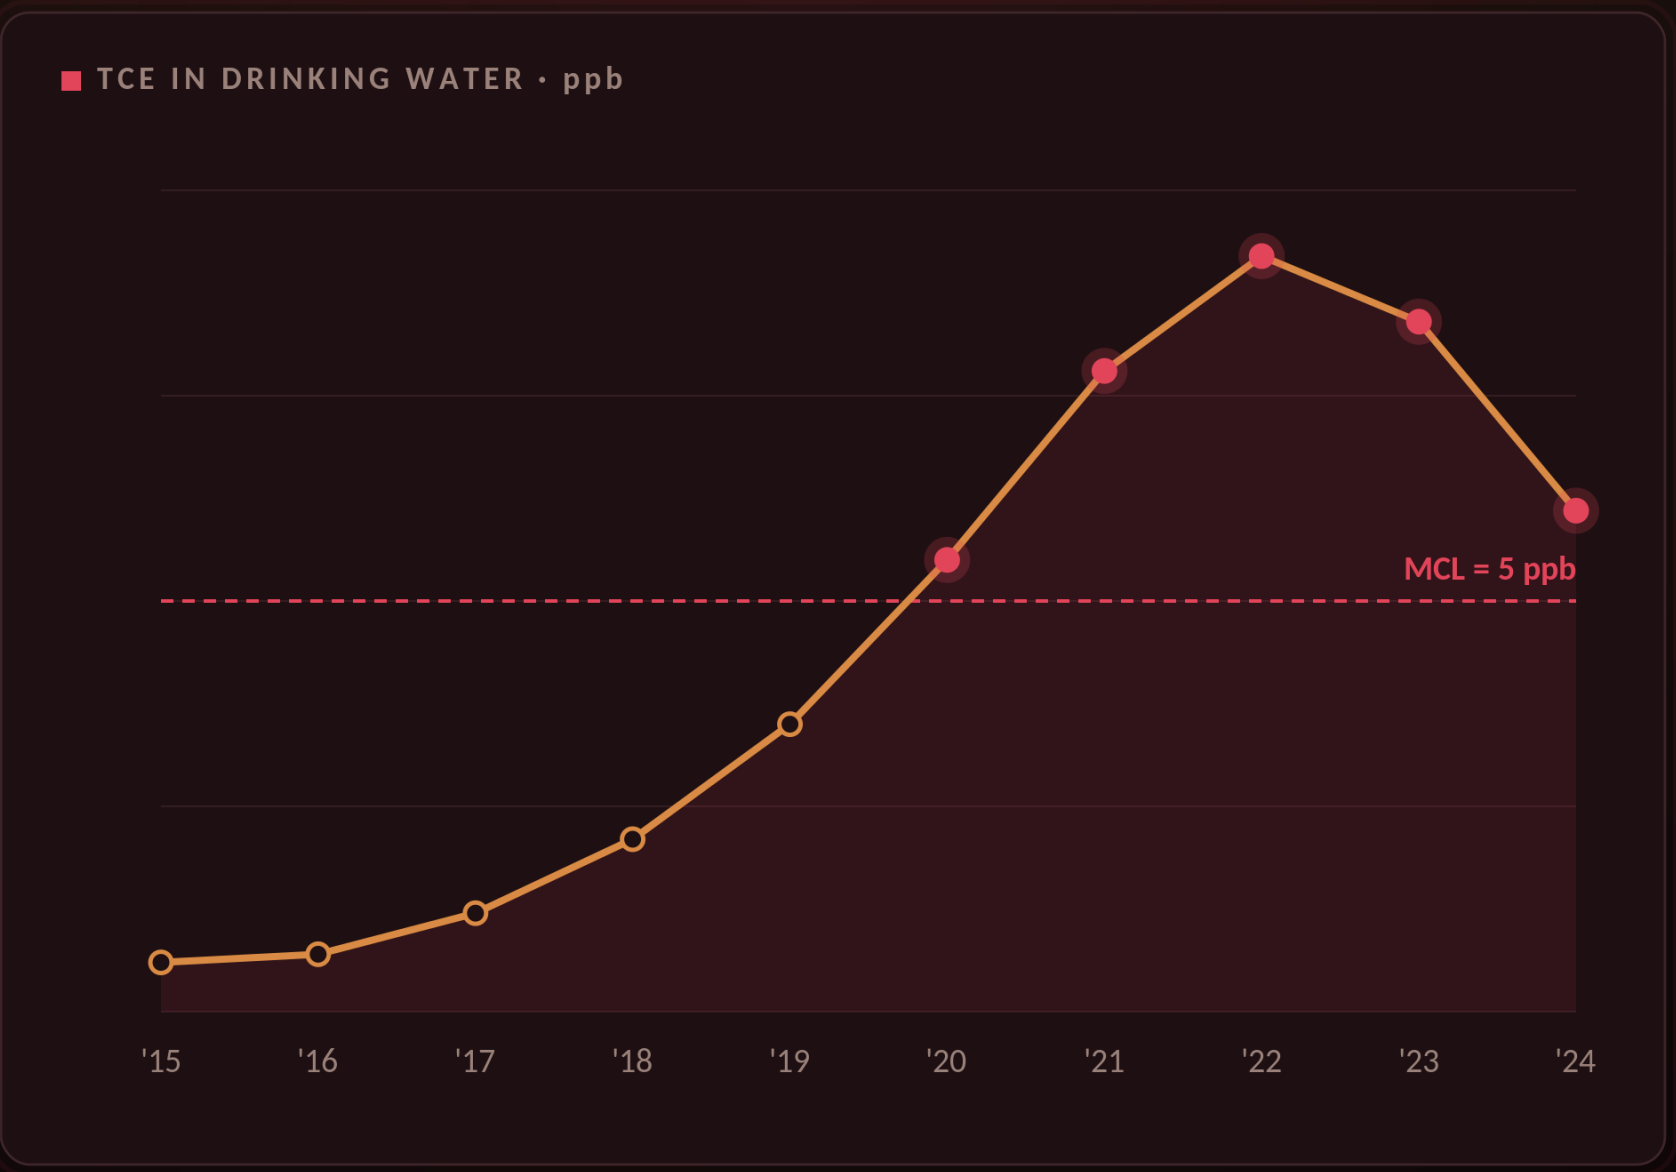

14 yr

undisclosed

CASE 03 • DOSE

Dose Over Time

Concentration against the legal limit.

18×

peak exceedance

2020

first exceedance

TCE

primary contaminant

CASE 04 • SUBSURFACE

Beneath the Surface

How the plume moved through the ground.

810 ft

plume length

4

strata mapped

migrates downgradient

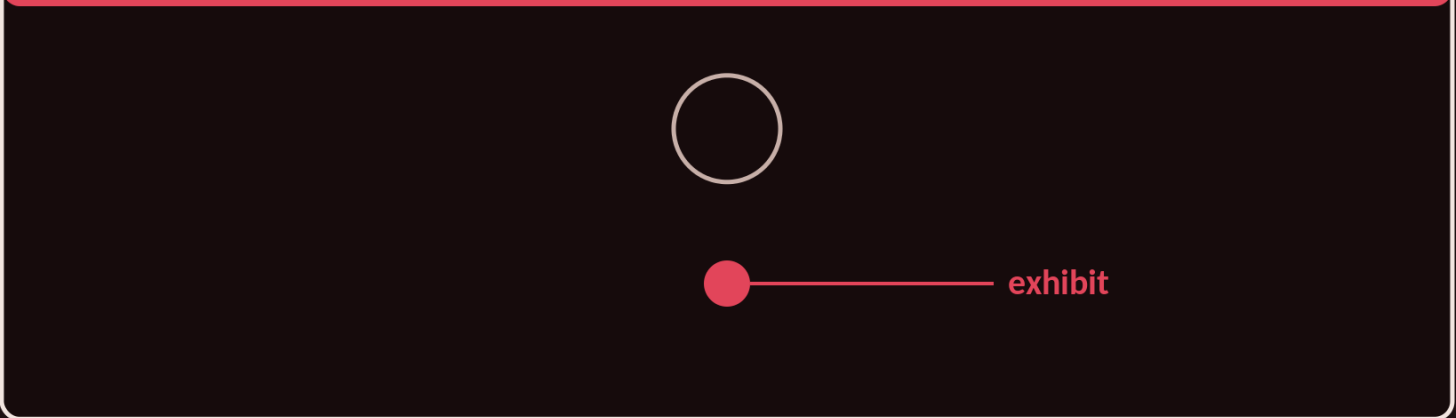

CASE 05 • PRESENTATION

Before the Jury

The plume map, staged.

■ CONTAMINATION MAP ON SCREEN

EXHIBIT 22 — PLUME EXTENT 2024

“The contamination migrated directly beneath the residential wells — above the limit.”

— Hydrogeologist, P.G.

420

residents exposed

18×

over the limit

14 yrs

of release
